SMART LIVING STARTS WITH CONNECTICA

WHO WE ARE

Connectica is an emerging provider of innovative smart solutions that empower individuals and businesses to create smarter, more efficient, and secure environments.

Our comprehensive suite of integrated solutions addresses a wide range of needs across various sectors, including smart homes, smart offices, smart retail, and advanced security systems.

With headquarters in Singapore and regional offices in India (Gurugram) and Malaysia, we provide innovative smart home, smart office, smart retail, security, and IoT solutions. We continuously strive to improve IoT-enabled solutions and seamless automation experiences that transform the way people live and work.

Experience the future of living and working with Connectica, where innovation meets reliability, and every space becomes a smarter, more efficient reality.

OUR MISSION

We strive to make smart living accessible to all, fostering a thriving ecosystem of connected spaces. Dedicated in providing innovative, user-friendly, and secure smart technology solutions for homes, offices, hotels, resorts and more in India.

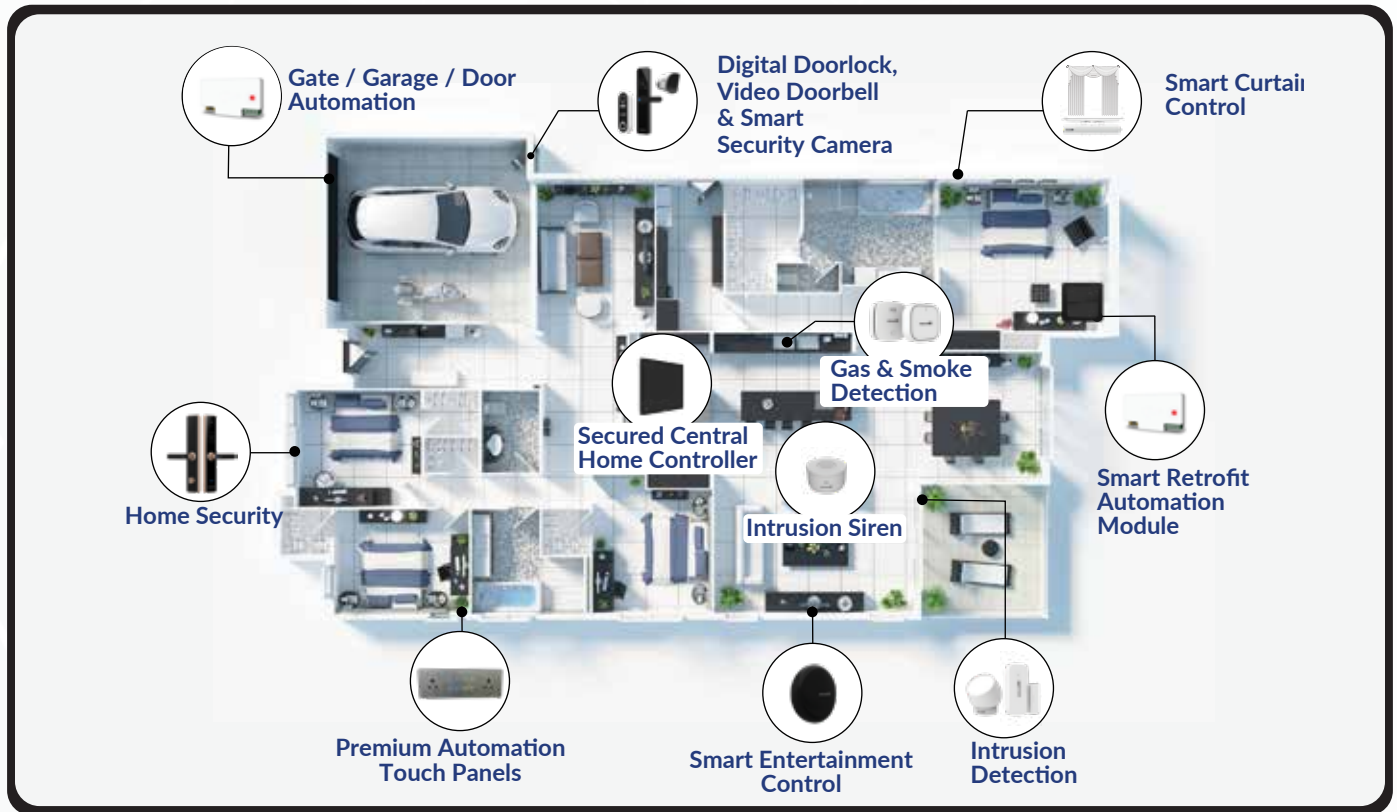

OUR VISION

To empower people with seamless smart solutions that elevate their lifestyle experiences, shaping a future of effortless convenience and peace of mind.

OUR GOAL

To become the leading provider of integrated smart solutions. Achieve market leadership by offering a comprehensive suite of smart home, smart office, and security solutions.

SOLUTIONS FOR ALL TYPES OF PROPERTIES

MODERN HOME

OFFICES

HOTELS & RESORTS

We begin by understanding each customer's unique needs and craft intelligent solutions that integrate with their lifestyle. From homeowners enhancing comfort, security, and energy efficiency to businesses and hotels embracing scalable, futuristic automation, our expertise transforms ordinary spaces into connected ecosystems.

With smart technology and innovative designs, we bring the future into your home or workplace. Change to a smarter way of interacting with your environment. Experience tomorrow, today.

CUSTOMER KEY BENEFITS WITH SMART AUTOMATION

Cutting-Edge Technology at Your Fingertips

Experience state-of-the-art home automation with Connectica's advanced technology. Our AI-driven systems offer voice control, real-time monitoring, and a unified platform for effortless management of everything—from lighting to security. Connectica keeps you connected and in control, wherever you are.

Connectica

Seamless Integration with your lifestyle

Connectica offers smart home solutions specifically designed to complement Indian living. Our systems manage power fluctuations and adapt to diverse weather patterns, whether in modern apartments or traditional bungalows. Connectica seamlessly integrates with your lifestyle, providing comfort and convenience tailored to Indian households.

Energy Efficiency That Saves You Money

Connectica doesn't just make your home smarter; it makes it greener. Our intelligent systems optimize energy use to reduce your electricity bills and environmental impact. Choose sustainable living with Connectica, where smart solutions benefit both your wallet and the planet.

Enhanced Security for Complete Peace of Mind

Security is our top priority. Connectica offers 24/7 monitoring, real-time alerts, and remote access to your home's security systems, so you can have peace of mind whether you're at work or away on vacation. Advanced cameras, motion sensors, and automated locks safeguard your home and loved ones.

Tailored Elderly and Family Care Solutions

Connectica provides smart solutions to monitor the well-being of elderly family members from a distance. With features like emergency alerts and automated health reminders, our systems ensure that loved ones receive the care they need, even when you're not there.

Effortless Entertainment and Ambiance Control

Enjoy a personalized entertainment experience with Connectica's smart home solutions. Control your music, TV, and lighting to create the perfect ambiance with a simple command. Connectica brings immersive entertainment into every room, transforming your home into the ultimate relaxation space.

SMART LOCKS

Connectica's smart locks offer advanced security solutions for every type of door-whether it's a deadbolt, rim lock, mortise, gate, or glass door. Our locks provide keyless entry, enhanced protection, and seamless integration with existing door mechanisms, ensuring convenience and peace of mind for every home or business.

SMART SENSORS

Connectica Sensors provides proactive home security by sending mobile notifications before potential issues arise. With these advanced sensors, you'll receive timely alerts, allowing you to take action and prevent mishaps, ensuring your home remains safe and secure at all times.

Smoke Dectector Sensor

Ensure the safety of your home with advanced smoke detector sensors. These devices continuously monitor for smoke and fire hazards, alerting you instantly through notifications and a built-in siren. Highly sensitive and reliable, they offer prompt warnings to protect your loved ones and property from potential dangers.

Water Leak Sensor

Stay ahead of water-related mishaps with our water leak sensor. It sends instant notifications when your water tank is full and, when integrated with automation products, can turn off the motor automatically. Ideal for detecting water accumulation in basements or

Gas Leak Sensor

Prevent kitchen mishaps with the real-time gas leak sensor, designed to detect cooking gas leaks instantly. Receive immediate push notifications on your phone and rely on its built-in alarm, even offline, for added safety. This sensor ensures quick action to avoid potential hazards in your home.

Motion Sensor

Enhance security and efficiency with motion sensors that manage both automated lighting and safety. Perfect for washrooms, staircases, and passages, these sensors conserve electricity by switching off unused lights and send alerts or trigger alarms when movement is detected, offering a safe and energy-efficient environment.

Door and Window Sensor

Protect your home with tamper-proof door and window sensors. Receive real-time updates on door activity via the app and alerts for unauthorized access. These sensors not only safeguard entrances but also trigger alarms to ensure your family's safety and peace of mind.

Temperature and Humidity Sensor

Keep track of your indoor environment with our temperature and humidity sensor. It monitors changes in your home's climate, sending timely notifications for adjustments. This sensor ensures a comfortable and healthy living space, helping you maintain the perfect indoor atmosphere.

Human Presence Sensor

Elevate your home's intelligence with the human presence sensor, designed to detect even subtle movements. Ideal for smart lighting and security, it ensures lights activate only when needed, conserving energy. This advanced sensor provides real-time alerts for unexpected activity, creating a safer and more efficient living environment.

Occupancy Sensor

Upgrade to smart living with our 360° Occupancy Slim PIR Motion Sensor. Featuring advanced motion detection, it ensures lights turn on/off automatically, saving energy and enhancing convenience. Perfect for indoor and outdoor use, its sleek design and durable build make it an ideal choice for modern automation solutions.

IR REMOTE CONTROLLER

One remote to control it all.

- IR Remote Controller gives you the control of any IR based remote on your Connectica app.
- One device can save you the hassle of managing many remotes for each of your appliances.
- Automate any existing AC, TV, DTH, Home theatres, Projectors or any other IR based appliances.

SMART CURTAINS

Connectica's smart curtains and blinds provide effortless automation through a smart app and voice assistants. We offer solutions for both blind curtains and roller shades, allowing you to control light and privacy with ease. Perfect for any space, our smart curtains enhance comfort and convenience with simple, modern control.

A person in a white robe is seen from behind, standing in front of a large window with dark curtains. They are reaching up to pull the curtains open, allowing bright sunlight to stream into the room, creating a warm and inviting atmosphere. The scene is set in a modern interior with a clean, minimalist design.

Hey Alexa!
Open The Curtains.

Easily upgrade your existing blinds or curtains to smart functionality with our customizable solutions, designed to fit any size or weight. Even during power outages, they can be operated manually. The system runs quietly and offers multiple control options, including the Connectica app, voice assistants like Google Assistance and Amazon Alexa, and RF remote. With Connectica curtain motors, you can fully open or close curtains, stop them with a button, or set them to a specific percentage position.

- High-accuracy position limit
- Internal structure is sealed and lubricated for low noise and vibration
- Overheat and overload protection
- Flame-retardant material for low fire risk Supports open, stop, close and percentage control
